## AIM

I am CSE junior undergraduate student at VIT, Vellore looking for experience to grow and to learn. I believe my zeal to learn and dedication towards work are my strongest traits. I strongly believe that I have some really good grasp over communication and working in situations both easy and demanding. As a CSE student, I harbor a deep interest in blockchain technologies and use of machine learning and AI for developing more humane systems.

I look forward to working with organizations that I can dedicate to and in turn develop my own skill set.

## EDUCATION
